

CLEARWATER AUDUBON

Conservation through Education

We miss our flock!

We are working to develop opportunities to help us stay connected.

Online Programs: Join us on social media ([Facebook Group](#)) for online speakers and community partnerships. We will Zoom into the new program year with special guests. Our [instagram](#) and [twitter](#) accounts will also provide information when you need a snack.

Virtual Field Trips: One of the new tricks up our sleeve is to be able to provide virtual field trips. Our goal is to identify target birds and explore natural areas, such as Important Bird Areas (IBAs), local parks, and preserves.

YouTube Channel: We will soon be launching our YouTube channel which will host educational videos and playlists for bird enthusiasts of varying feathers.

Please tell us about your favorite programs in a short survey [here](#).

CONSERVATION ADVOCACY

TOP STORIES

Conservation/Advocacy

Education is the key to preventing hooked birds, pelican ingestion of fileted fish, and line entanglements. Kim, our VP of Conservation & Advocacy, rescues many birds, but at the forefront are the shorebirds affected by fishing line, hooks and injury. Please help spread the word if you see a [Hooked a Bird](#).

Raptors are Ready

[@Moccasin Lake Nature Park](#)

MLNP is open for visitors and limited [volunteers](#). Please visit the raptors and show your support for our dedicated volunteers who have remained loyal to the care and welfare of these remarkable birds. Their support through this time of uncertainty has been steadfast.

Fall Internships

Current Internship Applications

Our application process is underway and we expect to accept applications in early August. Please notify us if your academic focus is biology, marine studies, ecology, or conservation.

PARTNERSHIP HIGHLIGHTS

Congratulations to Ann Paul

Florida Birding and Nature Festival

- June 30 -

Please join us in giving a Wings-Up Salute to Ann Paul, president of the Festival, on her retirement as Tampa Bay Area Regional Coordinator for Audubon Florida. Ann has been a driving force to protect Tampa Bay's waterbirds for more than 29 years.

Ann's long list of accomplishments includes numerous projects to restore, protect and create habitat to ensure the future of Tampa Bay's bird rookeries, which are among the nation's most important. No one deserves a break more than you, Ann, but we are so glad you will continue to lead our Festival! — with Ann Paul.

Continuing to keep people engaged

Partners in Conservation for Pinellas County

The image shows a Facebook post from the St. Petersburg Audubon Society. The profile picture features a logo with a pink roseate spoonbill standing on a yellow sun over blue waves, with the text "PETERSBURG AUDUBON SOCIETY" and "FOUNDED 1900". The post is dated Monday, June 29, and is titled "Conservation in the 21st Century". It is an online event shared to the Clearwater Audubon Society. The background image of the post shows a serene landscape with a body of water reflecting the sky and palm trees.
